WEBSITE OPTION B Application//Renewal Form For Full Members only

The Sculptors Society is a non-profit organisation that aims to promote public interest in sculpture. Members include contemporary and traditional sculptors using a diversity of materials, styles and techniques. The Society actively promotes members' works via exhibitions and the Society's website. We have 2 options for our members to put images onto The Sculptors Society website. Under Option A members can have 3 images of their work displayed on the website for no cost. Under Option B, full members only can display up to 16 images, with a full CV, contact details and a link to their personal sculpture website, for the small annual fee of \$50. We encourage a 2-year commitment for \$100, which is administratively easier.
